

LIVING AND WORKING IN THE UK (AHP EDITION)

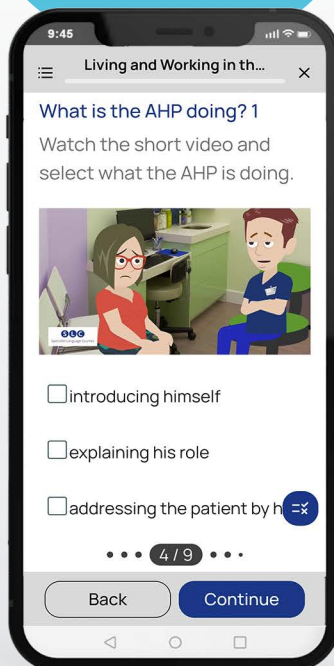

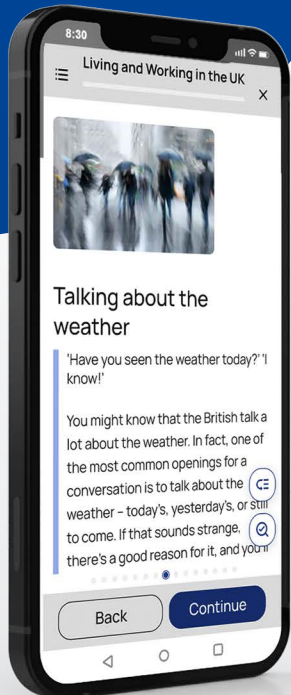

WELCOME TO THE NHS

Equips international AHPs with essential cultural, professional and linguistic knowledge

Bite-sized learning content

Highly visual and engaging

Why take this course?

This short course is for AHPs relocating to the UK. It provides them with the essential knowledge they need to successfully settle into the UK as an AHP.

The course is highly visual and engaging. It includes lots of videos and useful reading, information from the NHS and HCPC, interactive language and comprehension tasks to check understanding, reflective work, downloadable content, and links to a wide range of websites to explore and read further.

“This course is most useful for our IRs as it is an introduction to what to expect life to be like for them in the UK, helping them to settle in sooner to working in their first job in this country. With this and the support they receive when working here we hope they will feel part of the team sooner and happy working with their patients and colleagues at The Princess Alexandra Trust.”

Nicki, Radiology Quality Manager,
Princess Alexandra Hospital Harlow
